BOTTLED WATER REBATE APPLICATION

(adopted 1-24-2022)

On January 24, 2022, the Board of Water Commissioners approved the **Bottled Water Rebate Program** for qualified customers residing in the neighborhoods that are 100% supplied with water from Station 2. This rebate is intended to offset the cost of purchasing bottled water. The rebate program will work as follows:

1. A household/unit with a resident in a sensitive population, as defined in the Bottled Water Rebate Program memorandum (review the memo at www.lcwd.us/pfas), will be eligible for a \$55.00 credit/month (only one credit per household/unit)
2. A check will be mailed quarterly for any quarter that Station 2 of the Lynnfield Center Water District (LCWD) system is DEP non-compliant. January 2022 will be the first applicable month of rebates.
3. Residents must apply annually and attest to the medical conditions and place of residency.

This rebate program is not intended to operate as a guarantee regarding any exposure to PFAS6 and does not imply that its limits exposure to PFAS from other sources, nor does it operate as an admission of liability by the district if exposure to PFAS6 does occur. The district reserves the sole right to change the terms of rebate program at any time through vote of the Board of Commissioners.

Please complete in full and attach the necessary documents to the application for approval.
